DE DAKTENTEN SPECIALIST

HOW EVERY BUSHTECH CANOPY IS MADE

- Prolific design and finish that looks great with **NO exposed welding on the frame**, complementing the vehicle's high-quality finish.
- Specially designed reinforced frame profile that comes **standard with a 10year warrantee.**
- **Fully powder coated** frame and panels that are available in multiple colours.
- Pre laser cut holes to run wiring for lights or accessories **no drilling or gluing necessary.**
- **Unique subframe** profile allowing you to mount false floors and slides.
- All our canopies are compatible with the **full range of Bushtech Accessories.**
- **Custom suspension base rubber** to accommodate chassis flex and heavy roof loads.
- Specialised door bracings mounted to the locks and shocks **reducing door flex, dust ingress and providing added security.**
- **Large pressure leaver locks** with custom UV stabilised rubbers and adjustors.
- Continuous **dustproof & waterproof** hinges.
- **2 x Roof rails** that fit a M8 bolt, allowing mounting of roof racks, cross bars or tents.
- Custom **internal reinforced slotted roof bars** for strength and modularity of set up. Allowing the user to easily attach standard M8 bolts, eye hooks, tables and solar panels.
- 2x **High quality gas struts** per door.
- Front and rear **windows.**
- Light weight canopy – Double Cab Canopy is **only 65kg.**
- Load tested to **2.5 tons.**
- **Automotive door sealing rubbers** placed on doors to reduce damage when loading and offloading through the doors.
- Free fitment at the Bushtech Fitment centre in Fourways Johannesburg.
- **Free annual service** within your 10 year warrantee.
